

IN THE CLAIMS

1. (Currently Amended) A disposable hygiene device, comprising:
a substantially flat toilet seat with a top surface, and a bottom surface and at least one pair of handles adapted to fold for storage before or after use;
a receptacle attached to the bottom surface of the toilet seat; and
an adhesive located on the top surface that is exposed after use by removal of a protective covering,
wherein the toilet seat further comprises a visual orientation cue on the toilet seat that comprises an extension of the toilet seat extending from a front of the toilet seat.

Claims 2-4: Cancelled

5. (Currently Amended) The disposable hygiene device of claim 14, wherein the toilet seat comprises at least one fold-line that promotes folding of the toilet seat.

Claims 6-7: Cancelled

8. (Original) The disposable hygiene device of claim 1, further comprising a portable hygiene station comprising a support ring capable of receiving the toilet seat.

9. (Original) The disposable hygiene device of claim 8, wherein the supporting ring comprises a visual orientation cue to facilitate placement of the toilet seat on the supporting ring.

Claims 10-14: Cancelled

15. (Previously Presented) The disposable hygiene device of claim 1, wherein the portable hygiene station comprises a transparent material to facilitate identification of completion of a hygiene task.

Claims 16-37: Cancelled
